

# English Vision

At St Mary's C of E Primary School we believe that English is at the heart of children's learning; we provide a stimulating curriculum; drawing clear links between all subjects; allowing every child to be challenged in order to reach their true potential. St Mary's aims to nurture creative thinking through developing a love of spoken and written language which will allow our learners to communicate creatively, imaginatively and confidently. All children will be given access to a broad and balanced English curriculum which will challenge and support our learners. We aim to provide an inclusive, inspiring and uniquely engaging English curriculum, where children are encouraged to become passionate and confident about reading, writing and speaking and listening
