

St. Mary's C.E. Primary School

School Governors

Our Governors should:

Support the promotion of Christian Values including our specific agreed values.

Have a vested interest in our school and be willing to promote it positively both in and out of school.

Understand the defined role and responsibilities held by individual governors, committees and by the governing body as a whole.

Be committed to and able to give the time necessary to fulfil this role

Fully engage in meetings, Governor visits to school and work with the whole school community

Understand the context of our school embracing the diversity and wide socio-economic range of pupils here.

Understand the fact that we are at the heart of the town community

Understand the links that we have and need to continue to develop with the Diocese, St. Mary's Parish church and other Christian churches in Hinckley and the important role that Foundation Governors play

Have a clear understanding of standards and where the school should be in comparison with national and local attainment.

To work as an cohesive leadership team complimenting the roles of the other school leaders by offering an effective challenge and a strategic view as a critical friend

Demonstrate a commitment to investing time in developing relationships and quality communication in order to develop trust and understanding with staff, parents and the wider school community.

This statement is reviewed annually at the first meeting of each academic year.
